

How are you? Covid-19, Communities and You

The Covid-19 pandemic is changing the way we go about our day-to-day lives and can be a challenging time for many of us.

Camden and Islington Public Health is working with HealthWatch Islington, the Clinical Commissioning Group (CCG) and partners in the voluntary and community sector to understand the impact of the Covid-19 pandemic on residents' lives in Islington.

We would like to **invite you to share your experiences** of daily life during the pandemic through an online survey. Sharing your experiences will help us to offer the right support to residents over the coming months.

You can complete the online survey here:

<https://survs.com/survey/mqta0lwlu7>

There is a chance to enter a prize draw once you've completed the survey, with three £50 high street shopping vouchers to be won.

If you would like to complete the survey on the telephone, please call or email us using the contact details below.

Online group discussions with residents

We are also holding online group discussions in July and August to learn more about how the pandemic is affecting you during this time. You will be provided with a £10 shopping voucher as a thank you for your time.

Please get in touch on the contact details below if you'd like to take part in a discussion.

If you would like further information/support or to take part in a group discussion, please contact us on: (covid19survey@islington.gov.uk and 07813545613)
